

One platform. One partnership. Three doors in.

*The system is built: the site, the enrollment engine, the Hero · Coach · Parent portals, the O.M.G. and social-skills intelligence — everything specified in our working sessions, delivered. **Every door below is the same joint venture** —*

Wonderstorm's brand and educational leadership, StarHub's platform and intelligence — at three depths of build-out. This was never a website. It's a new line of business wearing Wonderstorm's name.

THE JV SPINE – TRUE AT EVERY DOOR

StarHub owns, operates, and continually evolves the platform. Wonderstorm owns its brand, curriculum, and name. Together they form **WonderStorm Digital** — the vehicle that scales the school's enrollment now, and licenses the system to the charter-school sector as it proves out. **Revenue the platform creates is shared at every level** — new-family enrollment lift, digital programs, and (Doors 2–3) sector licensing. We only win together. That was the point from the first conversation.
